HANNA CALLS TO ORDER.

The Great Convention Making History in Due Form.

Each Reference to the President Evokes a Storm of Applause.

(A. P. NIGHT REPORT.)
PHILADELPHIA, June 19.—Chair the lapel of his coat, surveyed as mposing spectacle when he called the weifth Republican National Convenion to order in the Export Expositio Building in West Philadelphia at 12:15 hall were endices vistas of people ris-ing in terraced seats to the walls. He looked into the faces of fully 15,000 men and women. Opposite, in a broad gallery, were massed a hundred musicians, their leader a mere pigmy in

The platform on which he stood jutted out like a huge rock into the ocean of humanity. Below him and flanking the stage was an emb ment thronged with representatives of the press of the country. Above, a riot of flags, bunting, eagles and shields—the whole scheme of the elab-

The convention today was the dignified gathering of the representatives of the Republican party to ratify formsily the wishes of the millions whose authority they held. It was very undemonstrative at first. While the crowds and delegates were filing into the hall before the hour for the calling of the convention to order had arrived, there were no wild greetings of party-leaders. A scattering appliause met Mr. Hanna's personal clouds. And the war with Spain, there was another frantic outburst.

Hanna as he made his way to the stage. Gen. Grosvenor, Senator Lodge, Senator Lodge, Senator Lodge, Senator Lodge, Senator Lodge, Senator Guy and a few others aroused a fluttering of hand-kerchiefs and a round of hand clapping, but men of national reputation whose fame has spread away from our shores across both oceans, entered without producing a rippls. Perhaps most of them were not recognized. It seemed tame. There was only that indescribable buss of myriads of voices which belongs to a national convention, as the humming of bees belongs to a field of clover in summer, and it looked as shough nothing could galvanise the thousands into life.

THE DRAMATIC FEATURE.

But just before Chairman Hanna was ready to drop his gavel, Gov. Roosevelt entered, and the vast audience was electrified. He stalked in at the main door. His Rough Rider hat signaled him out to the craining multitude. Seem—will the development of country.

door. His Rough Rider hat signaled him out to the craning multitude. Seem-ingly the audience had been waiting for him, and the applause that announced his appearance swept over the vast amphitheater and swelled into a great seat of the New York delegation, Senator Depew and Chairman Odell of the New York State Committee were with him, but the crowds had eyes only for the dashing hero of San Juan. No State delegation made an entrance

more opportunely. But he made no scknowledgment of the ovation his apret, and he came on through the press like a soldier performing his duty. He uid not even remove his hat, but pushed half hours, adjourned until noon.

THE NOMINATIONS swarmed from their places to grasp his hand. Fully two minutes it took for him to traverse the length of the ha.; to his place near the stage. All hat time the roar followed him, and the handkerchiefs rose and fell like the handkerchiefs rose and fell like the swarmed from their places to grasp his wings of gulls over a summer sea, Dut the leaders are upset.

he made no suggestion that he realized it was all for him. When he took his seat with his slouch hat still on, with-out having glanced to either side, the out having gianced to either side, the people gave it up, and the cheering gradually subsided. But it broke out afresh a moment afterward as the band started up the "Star Spangled Banner." Roosevelt, of all the thousands, was first upon his feet, standing erect, like a Norway pine, with uncovered head to the music of the anthem. Instantly the whole convention rose en masse, as if apologizing for its tardiness.

This entrance of Roosevelt into the convention was distinctly the dramatic feature. Then the wheels began to move, but the convention, under the spell of his presence, could not take its eyes off him. On him the interest seemed centered. During every pause presented to the national conventions as the candidate of New York for Vice-President. It was decided to do the

hastened to spread the report that he could not be moved into accepting.

Chairman Hanna's reception when he called the convention to order, and later when he made a speech, was flattering in the extreme, and the smile on his face expressed the pleasure it gave him. But the joy he experienced over his own reception seemed nothing compared with the delight he manifested when for the first time he mentioned the President's name. The convention went off like a rocket. The applause was seafening. Mr. Hanna's face was He showed the ecstany of the joy he felt over the storm of approval he had raised. Many in that moment remembered how the President's Warwick had announced, a year ago, that his ambition would be satisfied and his cup of joy would be full when he called together the convention that would renominate McKiniey. Perhaps it was significant that in his speech Senator Hanna made no mention of Cuba or anything that would furnish a per on which a Roceavelt demonstration could be hung.

A noteworthy incident of the session
was the remarkable demonstration to
Gov. Taylor of Kentucky. That his
party associates look upon him as a
martyr to partisan hatred, their great
ovation today made evident. Although
they succeeded in bringing him to the
platform, they could not induce him to
make a speech. The appointment of
the committees on Permanent Organisation, Platform, etc., concluded the
labors of the convention for today,
and with the benediction of the Rev.
Edward M. Levy, who delivered the invocation at the convention held on
Locust street in 1856, the convention,
after having been is session two and a

"Oh, that men would praise Thee for Thy goodness and for Thy wonderful works to the children of men. We adore. Thee for the way in which Thou hast led us. The glory and honor of our nation is the manifestation of Thy power and glory. Thou hast led us in ways not of our own choosing—ways best for us and most to Thy glory. May we cheerfully follow where Thou leadest. Thou hast been the God of our fathers. Thou art the God of their children. Our trust is in Thee.

"Save us, O Lord, from ingratitude and discontent. Give us the spirit of praise and thanksgiving. Grant that we, as a nation and a people, may remember Thy goodness and praise Thee for continued life and prosperity. O Lord, our God, let Thy richest blessing rest upon Thy servant, the President of these United States. Imbue him with a competency of Thy divine wisdom, that he may direct the affairs of the nation to Thy glory and the well-being of our people. We humbly beseech Thee, O Lord God, to bless all in authority. Sustain them in their responsibility, their relations to Thee and a free people." O God of all wisdom and grace.

AMERICA'S ATTITUDE. China May Receive Support Against Usurpation.

APPIVE IN the Lord Panncefote Confers With the Secretary of State-Wires.

China, improbable as such alignment may be.

A significant fact in this connection is that the official view here is still that there is not yet a state of war between China and the United States. It is contended that the stirring events of Sunday morning did not of necessity involve us in war, and that the action of the Chinese command at Taku may yet be disavowed or prove to have been based on ignorance or misunderstanding. In this case, it still gives opportunity for explanation by the Chinese government and suitable reparation that shall close this incident without war.

thou war.

The Russian Charge here, Mr. Wolnt, today notified Secretary Hay that
s government was dispatching 4000
cops from Fort Arthur to Taku. The
partment accepted this statement
thout comment. It is known to the
leials here that Japan also is sendr a corresponding number of troops without comment. It is known to the officials here that Japan also is sending a corresponding number of troops to the seat of the trouble, and that Engiand, Germany and France are doing likewise. It is believed that with our own force, numbering about 2000, including the Minth Infantry, the international army will be quite strong enough to relieve the slege of the embassies and legations at Peking. If a larger number of American troops should be necessary, they will be sent forward as soon as troops can be concentrated at Manila from the outlying posts.

intention to dispatch 4000 troops to China was accompanied by an understanding that these troops were to be used for the assistance of Europeans and Americans, and with no purpose of territorial aggression on the part of Russia. This assurance was received with the greatest satisfaction. It is understood that Japan, in view of Russia's frank declaration, will consent to assume the same obligation toward the other nations, in which case the greatest obstacle to effective action, whether concurrent or joint, by the powers in China may be considered as removed. Lord Pauncefote, the British Ambassador, called at the State Department this afternoon and spent half an hour in conference with Secretary Hay. His Lordship had no news from his own government beyond that conveyed by the morning papers respecting the developments in China and he was particularly anxious to be informed as to the details of the reported battle Sunday morning. The State Department was without information on this point. It is said that Admiral Kempff will be heard from in a day or so.

The difficulties in the way of a

on this point. It is said that Admiral Kempff will be heard from in a day or so.

The difficulties in the way of a speedy communication between the Navy Department and the admiral are illustrated in the series of messages that have come in the last forty-eight hours from the cable office. Yesterday the department was informed that while the wire system beyond Che Foo and leading up to Taku and Tien-Tain had been cut, it had been arranged that a daily steamboat should take messages for these points at Che Foo and carry them to their destination up the river. Though this arrangement involved a day's delay, 'it was acceptable and the authorities were disappointed at receiving today the following notice from the cable office: "Cable office reports Chineae admiristration canceled arrangements for postal service from Che Foo to Tien-Tsin and Taku. The Great Northern route through Siberia will do its utmost to get telegrams through to Thentsin, but messages can be accepted only at sender's risk."

An ugly feature about this notice is the disclosure of an apparent purpose on the part of the Chinese government to interfere with free communication between the foreign commanders at Tien-Tsin and Che Foo and their respective governments, an action which may have some bearing on the decision which must be reached very shortly as to the status of the relations between China and the other nations of the world.

Still Engages the Attention of the Continent.

Revolt is Spreading in Western China. Dowager Degrades Officials.

(A. P. DAY REPORT.I

LONDON, June 19.—(By Atlantic Cable.) From the German official dispatches, the American ships took no part in the bombardment of the Taku forts Saturday morning. No news has yet been received here of the relief of the legation at Peking, and Europe's attention centered far less on the overwhelming display of naval force at Taku than on the fate of the diplomatic staffs and six hundred cosmopolitan residents guarded by a handful of marines within the legations compounds. There has been no news thence since June 14.

Rumors that Japan will, as the mandatory of the powers, restore order

Rumors that Japan will, as the man-datory of the powers, restore order in China, was revived in the dispatch from Yokohama. Berlin dispatches intimate that Germany will not object to Japan sending 18,000 troops, while Great Britain will indorse the plan with avidity, though perhaps only se-cretly.

Great Britain will indorse the plan with avidity, though perhaps only secretly.

The Japanese legation in London has efficial information of the dispatch of 3000 troops. In the meanwhile, the British are dispatching six native regiments, besides artillery from India. The revoit is spreading in Western China. The representative of Pritchard Morgan, M.P., at Cheng Tu. wires that he and his party have been detained there owing to the news that the revolution has broken out in Czechuan, which adjoins the province of Yuen-nan, also in revoit, and official news comes today that the London Missionary Society's premises at Taso. Shih, Central China, west of Hankow, have been destroyed by a mob. The frising seems to be spreading with rapidity, and shows unexpected organization among the antiforeign elements. The missionaries at Taso Shih escaped and reached Hankow in safety.

Cable dispatches from Shanghai report that a number of Chinese crulsers are anchored in sight of the foreign settlements, which are only guarded by a small Japanese gunbont. A thousand Chinese troops with two 49-ton guns still hold the forts outside the town.

The Viceroy of Woo Sung is reported

pulsion of the foreigners, have taken place.

Three of the Taku forts, it is added, were completely destroyed, and most of the garrisons were killed or wounded by a charge of the saliors of the salied fleet.

It was announced today that the Chinese government has notified the cable companies that it is unable to provide any longer the daily boat service hitherto run between Taku and Che Foo, whereby dispatches were filed after the destruction of the overland route. It was further learned that it was quite likely that even the line from Che Foo, which is over two hundred miles from Taku, will not long be available for sending cables. The nearest point of communication with the outer world will then become Shanghai. The reason for the cable isolation of Che Foo consists in the fact that it is only connected with the main line by loops. The junction is inland at Chin-ing, and the "Boxers" are believed to be in that neighborhood. If they are successful, their first step is sure to be the destruction of the line.

All dispatches coming from Taku are taken to Che Foo in vessels of the powers, which may shortly have to go to Shanghai. This tedious method of communication may exist for some time after the united forces reach Peking. The first opening of communication between Taku and Peking will undoubtedly be by means of military wires, which will be taxed to the utmost by the demands of the commanders of the various nations. So complete is the destruction of the commanders of the various nations. So complete is the destruction of the commanders of the various nations. LONDON. June 19.—(By Atlantic Cable.) Lord Salisbury was the principal speaker at the bi-centenary meeting this afternoon of the society for the propagation of the gospel which took place in this city.

Referring to China, he said that though the persons slaughtered were christians, it must not be imagined they were murdered simply because the Chinese disliked their religion. It was because the idea prevailed there and elsewhere that missionary work was merely an instrument by which secular government achieved its objects.

While this was unjust and though the missionaries could not renounce their work, the utmost caution ought to mark their actions as oversealousness led to martyrdom and caused the death of sailors and soldiers sent to avenge the outrages.

GETS DISPATCH FROM TOKIO.

[A. P. DAY REPORT.]

BERLIN, June 19.—(By Atlantic Cable.) The following semiofficial dispatch has been received here from Tokio:

"The Japanese government has been cut off from all communication with Peking since June 14. The Japanese

Consul at Che Foo does not report any-thing concerning the destruction of the legations at Peking." AVOIDS SAYING "WAR."

(A.P. NIGHT REPORT.)

BERLIN, June 18.—The German government continues to express, its opinion with the utmost caution regarding the situation in China. Even

now it continues to avoid the use of the word "war," and still expresses a hope that the Peking government is innocent of deliberate hostile action. The German press is outspoken in its demands for more vigorous steps. A leading official, speaking for the Perriem Office, repeats the denial that A leading official, speaking for the Foreign Office, repeats the denial that the powers are negotiating regarding a course of joint action, and says everything has been left to the various commanders, who will simply "perform police duties." An official disnatch says everything is quiet at Kiao Chou. The mother of the German Minister at Peking, Baron Von Ketteler, in Munster, has received a telegram from China, saying the news of her son's death is not true.

President Montgomery Delivers His An nual Address.

MILWAUKEE, June 19.—The third convention of the International Mining Congress opened here today with several hundred delegates in attendance. Colorado heads the lists in exhibits with a collection of 2000 specimens. Among the most notable arrivals are B. F. Montgomery of Cripple Creek. Colo.; ex-Gov. Bradford L. Prince of Santa Fé, N. M., and ex-Gov. Swineford of Alaska. Ex-Gov. Prince responded to one of the addresses of welcome, and President Montgomery then delivered his annual address.

Col. Montgomery gave a brief review of the history of the congress up to the present session, discussing in detail its objects and purposes, and recommending a permanent organization to meet annually.

He reviewed at length the important of the process.

annually.

He reviewed at length the importance of the mining interests of the country, and the advantages to be gained by bringing the East and the West in their manifold mining interests together, as well as cultivating a more intimate acquaintance between the investor and the owners of the property to be invested in, and arguing strongly that mining was a legitimate business, entailing no more risks than any other branch of business if treated by investors and those developing mines upon the same principles upon which banking, merchandising, manufacturing, agriculture, etc., were conducted.

which a claim should be controlled exclusively by the laws of Congress and not left to the regulation of enactments of statutes by the several Btates, thus producing a uniformity of method of location, size of mining claim and annual assessment work by which a claim should be perpetuated until patent should issue.

He urged action to induce Congress to pass the bill to create a department of mines and mining like that of the President's Cabingt. He contended that the department should not be made a mere bureau in any other department, as it was now in the Department of the Interior, because then, as now, it would be treated as a matter of the Interior, because then, as now, it would be treated as a matter of the propertices. At the close of Mr. Montgomery's address the convention adjourned until tomorrow.

a beneficial effect in the treatment of the "Boxer" situation. Wu lays stress on the fact that Li Hung Chang is an honored and trusted servant of the Empress Powager and a man belonging to the progressive element in his country. It was for his valuable work in years past in dealing with organizations like the "Boxers" that Li received some of the honors conferred upon him. Wu has received nothing to confirm the report, but he hopes that it will prove to be correct.

The Minister continues optimistic regarding the fight which took place between the Taku forts and the foreign warships assembled there, believing that a thorough examination will demonstrate that the firing upon the menof-war was unauthorized, and the mistake of some official. Similar occurrences have happened heretofore, at one time when Wu was located at a prominent Chinese city. The affair, upon investigation, proved to have been the result of a mistake, and was astisfactorily settled.

Minister Wu scouts the idea that a state of war exists between China and the United States as the result of the fight at Taku. Such an assumption, he declares absurd, and without the least foundation to support it.

Whatever may be its ultimate purpose respecting the reinforcement of Admiral Kempfi with solders, up to this time the orders of the War Department contemplate the sending of only the Ninth Infantry. Secretary Root said tonight that no other troops had been ordered to mass at Manila, nor had any troops in addition to those of the Ninth Infantry, been directed to proceed to China.

THAT EXTRA SESSION.

HOAR HAS HIS VIEWS.

(A.P. NIGHT REPORT.)

BOSTON. June 19.—Senator Hoar was questioned today regarding a special dispatch from Washington giving rumors of an extra session of Congress to empower the President to send troops to China.

"Of course," said the Senator, "I can give only a party opinion, but I should say that it would require an earthquake sufficiently severe to shake every house in the nation to induce the President to call an extra session, particularly at this time with an election pending. I have no doubt the President will act upon his own responsibility and send to China as many troops as may be needed there."

THE CHINESE ARMY. POORLY DRILLED AND WEAK.

(A. P. DAY REPORT.)
NEW YORK, June 19.—From care-NEW YORK, June 19.—From carefully-prepared information on file in the bureau of military information at the War Department the Chinese army nominally contains about 300,000 descendants of the Manchu conquerors and their allies, says the Tribune's Washington correspondent. The number of the contract of

THREE REGIMENTS ARE GOING NEW YORK, June 19.—A special to the Tribune from Washington says that to meet the exceedingly grave complications that have developed in Northern China, and in order that the United States may be commensurately represented in the relief and protective measures forced upon the foreign nations, the President has directed Gen. MacArthur to send three regiments of regulars to Tien-Tain, which, with the support of commissary, field transportation, signal men, and medical staff, will make a force of 5000.

Admiral Remev has been instructed to send the Oregon to Taku as soon as she can start. She will take extra marines and salors from the Monterey, now with her at Hongkong.

SAVED THE BRITISH AT TAKU.

[A. P. DAY REPORT.]

NEW YORK, June 19.—The Taku forts occupied on Saturday by the international forces, just forty-one years ago were the scene of an episode which gave to the world that famous phrase, "Blood is thicker than water."

A British fleet of eleven small gunboats, under Admiral Hope, was engaged in an assault on the mud batteries just inside the Pei Ho River bar, June 25, 1859, when the tide went down

teries just inside the Pel Ho River bar, June 25, 1859, when the tide went down and left them helpless in the mud under the fire of the Chinese smoothborea. Capt. Tattnall, flag officer commanding the United States China squadron, was anchored off the bar, nominally guarding American interests. Perceiving the plight of the British admiral, he lowered his barge, and with his flag lieutenant, Stephen Decatur Trenchard, was badly wounded, and one man in the barge was kliled in passing through the fire from the forts. Once on board, however, the British guns were so well served by the Americans that the forts were slienced, and Tattnall himself piloted the boats by a channel he had discovered until they found the protection of the fieet outside.

Tattnall's action was regarded by the authorities at Washington as tantamount to disobedience of orders, as he had been strongly cautioned by his government to preserve neutrality, and limit his activity solely to the protection. June 25, 1859, when the tide went down

ent to it as a whole. Gradually the painters of the middle ages abandoned the more meaningless of these signs and put new significance into the slift figures, themselves little more than pictographs. They gave movement to the limbs, animation to the features, variety to the grouping. In the search for new and more effective means of expression they made a new conquest of the natural world, and this was in itself a source of pleasure, to express which became a new motive for art. Hence we have in the works of the primitives ingenuous worldliness along with religious exaltation, scrupulous rendering of fact together with every artifice of suggestion known to them; examples of genre, the portrait, the story picture, still life; in short, the whole realm of art in outline. There are even, among the Germans especially, a sort of decadent prettiness and a love of labor for labor's suke which we generally think of as vices of much later periods. To take in the whole of this wonderful time at a glance compare the so-called Cimabue, a Madonna, austere, rigid and illidrawn, or the more interesting triptych by Duccio, which, however, is as flat Notice to Taxpayers.

The trouble with the Boxers in China has attracted world-wide attention, and will probably continue to do so. One of the most important figures in the attempts to control these Boxess and other thug societies sworn to exterminate "foreign devils," has been Edwin H. Conger, the United States minister at Peking. Mr. Conger is 57 years old and was born in Knox count." III. He was educated at Lombard University, where he graduated in 1862. He immediately entered the army as a private, and was made a captain at nineteen. For bravery in service he was brevetted a major. After the war he studied law and located at Galesburg, but in 1863 he removed to lows. President Harrison appointed him United States minister to Brazil, and President McKinley gave him the same distinguished position. He was later, however, transferred to China, where he has been doing good work.

POOK-LIKE CLASS DAY AT OCCI-DENTAL COLLEGE.

It was a merry hit on the part of the class of "noughty nought" of Occidental College when they planned and carried to a finish the weird class-day exercises on the college grounds last night. Down in the wooded canon near the college, and just where the mountain rises abruptly, stands a magnificent sycamore. Its wide-spreading branches foster a luxuriant sward, and wild undergrowth, making it an ideal spot to the young and romantic, and indeed, to those who no longer bill und coo, and live on the bread and "lasses" of college lore. In the fascinating apot the big sycamore was covered with Japanese insterns, and in their ghostly light sat the audience. Out from the darkness now and again came the class cry:

Ar coarl
O.C.! O.C.!
Occidental! See?"

araucaria) on the college campus, and the accompanying oration by Alired Solomon, class president.

A funeral procession was then formed by the college students. At its head was carried a coffin-like box containing the new despised and to be forgotten class ethics, with the graduates as the chief mourners. They marched to a point near the big sycamore, deposited the box on the ground, formed a circle, and with much ceremony applied the match, while the three graduates shed crocodile tears. When the cremation was complete, Miss Gordon stepped forward and said, with mock solemnity: "If you wish to be buried in an ethical manner, you will be cremated."

From a desk beneath the big tree, ighted by an old-fashioned lantern, the class orations were delivered, as follows: Class history, Grace Rarie Low-der; class orations, Amy P. Gordon; class poem, Alfred Bolomon. They occasioned continuous laughter.

During the reading of the poem a fire had been kindled beneath a great cauldron, and while a spook band off in the darkness among the trees played "There'll be a Hot Time," and other classical airs, the graduates, clad in black robes and spookish hats, circled around the cauldron, preparing the "refresiments," and Miss Gordon delivered herself of the following: "Double, double, toil and trouble, Fire burn and cauldron hable.

red herself of the following:
"Double, double, toil and trouble,
"Double, double, toil and trouble;
Fire burn and cauldron bubble;
All into the cauldron go,
Toads and bugs, and friend and foe."
Round and round the kettle the two Round and round the kettle the two lady graduates continued to merch, stirring the mythical soup, while Mr. Solomon in keen satire delivered a "roast," well done and juicy, to the under classes in the college, who were supposedly cooking in the lettle and were fished out one by one; nor did he forget to pay the compliments of the senior class to the professors, as well.

The closing feature was the "Sybil's Prophecy," by Miss Mas I. McClung. This was a satire on the graduates, and the audience enjoyed the "give and take" insmensely. The sibyl finished by presenting to Miss Lowder a doll for the beginning of her kindergarren work; to Miss Gordon a copy of Mother Goose's Melodies for Greek translation, and to Mr. Solomon a mirror in which

ING LAST NIGET.

The Union League Club received last night at the headquarters on South Spring street. It was a genuine Republican house warming, and those who came in expectation of a good time got what they were after. There were speeches and stories and music. Dr. O. S. Barnum and the Southwest McKinley Campaign Glee Club were on hand to enliven proceedings with excellent songs. B. E. Searies on the plane and Rollo Gardner on the banjo furnished ragtime selections, and a large bowl of punch on a stand in the corner helped to mitigate the effect of the warm weather.

At about \$130 o'clock the guests were invited to Edjourn to the assembly hall in the rear of the pariors. The hall was filled, nearly two hundred people being present. Among the crowd were many prominent local Republican workers. R. D. Wade presided. He assured the guests of the delight which the club felt in welcoming them to share its hospitality. Many similar occasions, he said, would follow, and he wanted everyone to have a sood time at the initial house warming, so that they would come again.

### LOSS AT BLOOMINGTON.

Courthouse and Pifty Blocks Burned. Two Firemen Missing.

BLOOMINGTON (Ill.,) June 19.—Fire that was discovered at 12:30 o'clock this morning, swept the business section of the city and entailed a loss that is estimated at \$2,000,000. Word was sent to Peoria and Springfield to send engines. As every effort to check the flames proved futile, the blowing up of buildings with dynamite was resorted to after the fire had been raging three and a half hours.

A strong east wind prevailed which made the work of the firemen difficult. The burned district included some of the handsomest buildings in the city. Among the buildings and stroyed and some of the losses are the following: Greisheim building and stock of clothing, \$100,000; Cole Brothers, dry goods, \$75,000; Stephen Smith & Sons, dry goods, \$75,000; Stephen Smith & Sons, dry goods, \$75,000; Miner Block and stock, \$100,000; Miner Block and stock, \$100,000; Miner Block and stock, \$100,000; Phoenix Hotel, \$30,000; Windsor Hotel, \$75,000; George Brown & Co., furniture; R. Thompson & Co., furniture; Myers & Mills, hardware, and the Courthouse.

Forty to fifty business houses were burned out. The Courthouse, which was entirely destroyed; cost \$400,000. The records were saved. An engine and hossecurt with full complement of men from Peoria, and also a like outfit from Springfield, arrived about \$1 a. m. They were greeted with cheers by the multitudes on the streets. The pumps at the waterworks falled seriously two hours after the fire broke out and the supply of water was in-adequate.

### BLOW AT OUR WINES.

### Frenchmen are Jealous of the California Industry.

## Exposition Jury Will not Judge Brands

With French Names.

[A. F. DAY REPORT.]

PARIS, June 19.—[By Atlantic Cable.] The national commissioners to-day continued their inspection of the American exhibits at the exposition.

The jury on wines has decided not to judge any foreign wine which bears the name of any French wine. Most American wines have the general names of French wines, with which they are flavored, such as Sauterne,

names of French wines, with which they are flavored, such as Sauterne, Chablia, Bordeaux, Chateau Yqem, etc. These will be excluded under the action of the jury, half of the membership of which are Frenchmen.

The California commission who hoped to secure recognition for their wines are incensed and, threaten to withdraw all their exhibits. It is felt here that Jealousy of the American wine industry is at the bottom of the trouble, as the wines now excluded were judged at the exposition of 1889 under the names they now bear. Besides the American wines were catalogued under their prayent names and there has been no protest until now.

Late this afternoon the question was brought to the attention of the American representative on the wine jury, and pressure will be brought to bear with the object of annulling the decision which is considered most unjust to the American exhibitors.

It is believed the wine jury, which is a class jury, acted without authority, and that it will be overridden by the group jury whose duty it is to decide such matters.

### CUBAN FUNDS RIGHT. GEN. WOOD DENIES CHARGES OF EXTRAVAGANCE.

HAVANA, June 19.—[By West Indian Cable.] Gen. Wood has issued the following statement: "The examination by expert accountants of the treasurer's office from the date of its treasurer's office from the date of its inception last year has been completed. The office was found in excellent condition. It has also been conclusively proved that the charge of extravagance in the matter of salaries of Americans paid from the island tunds is absolutely without foundation. The fact of the case is that the highest salaries paid in the island are paid to Cubans. The reports of extravagance in transportation and like are absolutely false."

### MEXICAN OUTLAWS CAUGHT.

CHICAGO, June 19.—A special to the Record from Globe, Ariz., says: "A posse arrived here tonight with a heavily-ironed Mexican, who is believed to be one of the gang of four which killed two station employés at New River Wells, robbed a stage coach and committed numerous other depredations two weeks ago. The officers refuse to talk, but there is reason to believe they came upon the gang and killed three."

CONTINENTAL CRITICISM.

[A. P. NIGHT REPORT.]

LONDON, June 19.—Referring to continental criticism, Chamberlain, after remarking that England always expected this, went on to say:

"But there are quarters whence even a note of disapprobal would be a matter of serious concern. I refer to our colonies and to the United States. I think we are happy in that we have their good opinion and approval.

"It is true that this good opinion of the United States is not unmixed with other sentiments. I will not now enter upon the causes, partly political and partly sentimental, which have led certain Americans to sympathize with what they call n republic, although its whole existence and whole practice have been one perpetual denial of the principles upon which their great republic is founded. I believe the great majority of true Americans recognize that our aims in this war are as high and as unselfish as those which animated themselves in the Spanish-American struggle. They fought then for justice and liberty, not for their own successes, indeed, but for those whom they believed to be the victims of oppression, and we did not enter into quizzical disquisitions or technical discussions, but recognized that they were

### STUDIO FOOD.

An Artist's titet.

An artist living in a New York studio, writes regarding the advantage of a proper selection of healthful food. He says, "Some time ago a sister who had been ill, wrote me of the good she had obtained from the use of Grape-Nuts food two meals a day and that all the family made great use of the food. She recommended it very strongly to me.

"I had up to that time supposed this was a luxury and had not tried it, but I sent for some and for quite a little time, depended largely on Grape-Nuts, with assurprising result. I have largely lost my taste for meat and am unusually strong, walking a long distance daily, which for some years has been almost impossible.

"I live in a studio and have neither time nor room to cook, therefore the the Grape-Nuts being ready cooked, come in as an especial boon and I felt I must thank you.

"The Postum Cercal Coffee I have used a long time, and if that come from you, it must come in for a share of thanks also." Ada A. Brewster, 204 W. 100th St., New York City

structure, with a classic front, Corinthian columns and handsome architecture, crowned with a quadriga drawn by four horses—an allegorical group representing commerce driving her steeds through the world. A paing of staffs, with their flags flapping merrily in the fresh breese, encircles the roof.

The interior of the immense hall has a capacity of 16,000. The decorations are profuse and elaborate. The double row of pillars which uphold the roof were entwined with cedar and gracefully connected with bunting, caught up at every pillar with State shields. The south end of the hall was obliterated with flags and bunting, through the mass of which a large crayon portrait of the President looked out from an immense American ensign. It was the most striking feature of the decorations. The scheme of decorating the hall naturally carried the eye to the likeness of the party's chieftain.

On the raised platform, immediately below this portrait, were the seats of the National Committee and other dignitaries and distinguished guests of the convention. The front of the platform was banked with palms and greens, and at sither end were two immense vases filled with spreading bunches of American Beauty roses. Ca the chairman's desk was a small bunch of flowers. Down five uncarpeted steps in a rail-inclosed platform, which ran back until it flanked the main platform, were the seats for 500 working newspaper men, and down five more steps was the pit of the delegates, their seats running back, rank on rank, State standards marking the location of the delegations.

Back of the delegates' seats were those for the alternates, the whole pit being sunk five feet below the main floor, and surmounted by a railing. From the edges of the pit, stretching away endlessly, the thousands of chairs for the public, across the entire length of the hall. In the north gallery was the band of 100 musiclons.

PHILADELPHIA, June 19.—The crowd is easily assembled and amused. Tonight is everybody' night in Broad street. The Albany Club started out from the Hotel Walton about \$ o'clock, headed by a band. The crowd quickly gathered around the club, and the band played while the throngs applauded. Then somebody called for a speech. This was seconded by everybody present. There was calls for Hanna, Rossevelt, Lodge and others, and the crowd in the street looked up at the hotel front as if it expected to see some of

Then the crowd yelled for anybody to talk. There was an advertising wagon in the crowd constructed on the election plan. A man mounted this and harangued the crowd. He had the voice, and that satisfied them. No one seemed

to know the speaker's name, and no one semed to care. When the speaker jumped off the waron the band and the Albany Club moved toward the Clty Hall. The crowd shifted and broke into groups, and still filled the streets.

Later in the night a drum and fift corps, under the apprehension that they had been neglected, started in and added to the noise. This was a diversion for a few minutes, and then the crowd resumed its promenade, halting, commenting or shouting, according to their order. The weather was well adadpted for a crowd, and it made the most of the combination.

be has been a refect sot, abusing his wife in a shameful manner and failing to contribute to the support of his family.

A few months ago Sheain was arrested for beating his wife. Justice Austin gave him a thirty-day suspended sentence, in the hone that he would mend his ways and do his duty toward those dependent on him, but the act of mercy was barren of results, if all reports are true.

Three weeks ago one of Sheain's children, a boy 3 years old, died, According to Humane Officer Craig, Skain went home in an intoxicated condition while his child was lying in the house a corpse, and has been on a continuous spree ever since. The little one was buried by funds raised among the neighbors. There are five children left, the youngest four or five months old, and the family is now and has been for some time, supported by neighbors and the Associated Charities.

Craig says that Sheain spends most of his time about Chinatown, doing odd jots of plumbing and carrying in wood for the Chinese, and what little money he earns, is immediately spent for whisky. It is asserted that he is so lasy that on several occasions, after hanging around saloons and drinking all darhe has spent his last nickel for car fare, rather than walk home and give the money to his wife to buy bread.

Craig also says that on several occasions Sheain's wife has attempted

and give the money to his wire to only bread.

Craig also says that on several occasions Sheain's wife has attempted to go out and work, in order to buy food for her little ones instead of depending altogether on charity, but that he would not allow her to do so. Last Sunday, it is alleged, she went to the house of a neighbor and washed dishes, earning 15 cents, with which she bought food. Sheain ate part of the food and then beat his wife for earning the money, it is charged. He will be arraigned in the Police Court today.

E. Payne of New York as chairman and Col. Charles Dick as secretary. It was found that twenty-four contests were to be heard. The most important contests are in the State of Texas, Delaware, Lousiana and Tennessee. Nearly all other contests are confined to district delegations.

The Addicks delegation from Delaware was seated by the Committee on Credentials by a vote of \$5 to 9. A fight between the Dupont and Addicks factions has been engaged in ever since 1885, and the struggle tonight before the committee was the hottest they have ever had. Both sides had a long array of legal talent to speak for them. In the Alabama contests between the Vaughn and Bingham factions, the former won their delegates-at-large by a vote of 29 to 13, and in two of the four contested districts they won in the Third and Fonurth, while the Bingham people won in the Fifth and Seventh.

In the Louisiana contest tonight the Warmouth delegation was seated, sustaining the decision of the National Committee. There were contests in the First, Second, Third, Fourth and Fifth districts, all of them being decided in favor of the Warmouth faction. The arguments are yet to be heard in the Tennessee cases.

A careful effort is being made to find
a way to not entirely cut off the hopes
of the bimetallists, but there will be a

Even the Governor himself was
variously quoted, some of the expressions amounting to a declaration
that his statement must not be taken

stand if drafted. One of the reported
interviews, said to have occurred at 11
o'clock last night, long after the Governor's statement and after the New

as follows:

"Governor, the story is current that
you said your statement eliminates
you from the race for the Vice-Presidency?"

Gov. Roosevelt is said to have replied
with exceeding warmth, "I have said
nothing of the kind."

This answer is variously construed,
but at all events, it adds to the uncertainty in the minds of those who are
about to frame the ticket. Still another statement, purporting to give
the exact words of Gov. Roosevelt to
Joseph Manley of Maine, is as follows:
"I will tell you that is final. Absolutely nothing can induce me to accept
